FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education (DESE)** assume no fiscal impact to the state. However, local school districts will likely incur significant costs. DESE estimates the salary for a Braille instructor at \$60,000 plus \$34,200 (school district fringe rate) for a total of \$94,200. The National Reading Media Assessment is currently free; DESE does not provide any such assessment.

Officials at the **Special School District of St. Louis** assume no fiscal impact to their school as they currently use Braille for visually impaired students.

Officials at the **Lee Summit School District** assume no fiscal impact to their school as they have a VI teacher and para teacher that teach Braille.

Officials at the **Kansas City Public Schools** and **Malta Bend Schools** each assume there is no fiscal impact from this proposal.

Oversight notes there are 520 school districts in the state that may be impacted by this proposal. DESE was unable to provide Oversight with the number of Braille instructors currently working in the school districts. However, they were able to say that in the 2014 school year 43 school districts provided a course for visual instruction. Oversight will show the impact of this proposal as Unknown, \$100,000 per district that needs a Braille instructor.
